

Do you recognise anyone?

1. We shouldn't spend so much time talking and working together, as we all have our own responsibilities.
2. We tried that before and it didn't work then, so why should it work now?
3. We don't need to talk about the jobs we do all the time. We should just go out and do them.
4. I don't need to listen to anyone else's ideas as I know mine are good ones.
5. It may have worked somewhere else, but it won't work here.
6. Aren't we all too busy to take on any new ideas at the moment?
7. We won't receive enough help for us to change to that way of working.
8. What a strange idea! Don't you think it is a bit too far divorced from reality?
